DETAILED ACTION

1. Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 3-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 3 recites the limitation "the mounting mechanism" in line 7. There is insufficient antecedent basis for this limitation in the claim as this limitation has not been previously recited.

Also, claim 3 recites "the loading tube having a jacket" and "the mounting mechanism comprising a jacket". It is unclear how the loading tube jacket and the jacket of the mounting mechanism function together.

Claim 4 recites the limitation "the holder mechanism" in line 7. There is insufficient antecedent basis for this limitation in the claim as this limitation has not been previously recited.

Also claim 4 recites "the jacket" in line 4. However, claim 4 depends from claim 3 which recites "the loading tube having a jacket" and "the mounting mechanism comprising a jacket". It is unclear which "jacket" is being referred to in claim 4.

Claims 5-9 depend from claims 3 and 4 and likewise are indefinite.

Note: in the office action dated 9/25/06. It was noted that claims 3-9 would be allowable if the limitations of the now canceled claim 2 were included in these claims. The limitations from the former claim 2 were not included in the amended claims 3-9 which has led to these claims being indefinite.

Allowable Subject Matter

4. Claims 14-17 and 20 are allowed.

Response to Arguments

5. Applicant's arguments with respect to claims 3-9 have been considered but are moot in view of the new ground(s) of rejection.
